Final Project: The Maurder's Map

CST 336: Internet Programming

11/12/2018

USER STORY

1. User can use the map; this shows some characters from the Harry Potter movies using a 3rd party API -https://hp-api.herokuapp.com/.
2. User can filter results given 4 fields; last name, first name, patronus, and house.
3. User can login to an administrative system; this system.
4. User can edit the roster of professors at Hogwarts; remove, add, and edit professors.
5. User can view House Cup (trophy won by group of best students) data when logged into the system.
